On behalf of the Sierra Club Atlantic Chapter Water Issues Committee, we would like to invite you to attend Water Law for Activists, an event the committee is organizing with the Cornell Law School Environmental Law Society. Access to clean water is one of the most important environmental and social issues facing our communities. The purpose of this conference is to bring together lawyers and activists working on water law issues in New York, to learn from and network with each other. The conference will focus on best ways to support water advocates in their efforts.
